7 PM meeting called to order by Chairman Gino Cresta

A motion was made to accept the meeting minutes from the 8-22-16 meeting. Unanimous approval.

JC gave a brief presentation on the roll the LSP plays in the process and what the procedure typically entails.

CH presented the group with an initial field design for review. After review of the design by the group CH was directed to move forward with the next step which is to further develop the design.

CH also presented the group with a potential master plan for improvements to the immediate area surrounding the field itself. While these improvements are not specifically part of the field project, the group feels that it is prudent to look at the entire area and identify items that could enhance the final product.

Much discussion ensued with respect to which items would benefit the town the most. More discussion to follow.

CH presented the group with a very preliminary budget which the group reviewed and commented on. Further budget review will wait until the design has been developed further.
