DEMOLITION - Any act of pulling down, destroying, removing, dismantling or razing a building or any part thereof, including but not necessarily limited to commencing the work of total or substantial destruction with the intent of completion of the same. Demolition shall also include significantly altering the shape of the roof, or removal of significantly integral components of the building or structure such as a turret. For purposes of this section, the term "demolition" shall not include the ordinary maintenance or repair of any building or structure, interior renovations, or removal or demolition of any ancillary portion of a structure such as porches, decks, windows, etc...provided that in the instance of demolition of said ancillary portions for the purpose of repair or replacement, said repair or replacement shall be done using like-kind or better materials which determination shall be made by the Inspector of Buildings.

11. FINAL DETERMINATION - a decision made by the Commission in accordance with Section (d) 3.C. of this chapter.
12. INITIAL DETERMINATION - any determination made by the Commission in accordance with Section (d) 3.A. of this chapter.

14. PERSON - a private individual, firm, corporation, partnership, association, trust or society.
15. PREFERABLY PRESERVED - Any significant building which the Commission determines, following a public hearing, that it is in the public interest to be preserved rather than demolished. A preferably preserved building is subject to the nine-month demolition delay review period of this bylaw.

16. SIGNIFICANT BUILDING OR STRUCTURE - Any building or structure within the town which is in whole or in part seventy-five years or more old (at the time of the request for the demolition permit) and which:

- a. Is-listed on, or is within an area listed on, the National Register of Historic Places; or which is the subject of a pending application for listing on the National Register, or
- b. Is or has been designated by the Commission to be eligible as a significant building or structure after a factual finding that the building or structure is either:
 - i. Importantly associated with one or more historic persons or events, or with the broad architectural, cultural, political, economic or social history of the Town of Swampscott or the Commonwealth of Massachusetts; or
 - ii. Historically or architecturally significant (in terms of period, style, method of building or construction, or association with a reputed architect or builder) either by itself or in the context of a group of buildings or structures, or
 - iii. Listed in the Swampscott Historical Commission Survey, originally published in 1986, as periodically amended. A copy is available for review at Town Hall and the Swampscott Public Library.

and therefore it is in the public interest to be preserved or rehabilitated rather than to be demolished. The Commission shall make its determinations using industry standard historical guidelines whenever applicable.

- c. With the exception of a structure which can be classified under 16(a) above additions, outbuildings or other structures relating to the significant building, that are less than 75 years old are exempted from this by-law, with sufficient documented proof of age as determined by the Inspector of Buildings.

In determining the age of a building and/or structure, the Inspector of Buildings shall use the Town Accessors database and/or MACRIS. In instances where there is a discrepancy between the Accessor's database and MACRIS, MACRIS shall prevail.

17. STRUCTURE - any constructed, erected, or placed material or combination of materials in or upon the ground, excluding sidewalks and paving on streets, driveways, parking areas, and patios.

18. VOLUNTARILY - any act(s) done by design or intention, which is proposed, intended, or not accidental.

(c) COMPUTATION OF TIME

For the purposes of computing any period of time regarding the demolition review process, excluding age of the building or structure, the day of the act after which the designated period of time begins to run is excluded: The last day shall be included, unless it is a Saturday, Sunday, or municipal or federal holiday, in which case, the period runs to the next business day.

For the purpose of calculating the age of a building or structure, any point on a calendar year shall be counted as a complete year; e.g.: a building or structure built in June 1930 shall be considered 75 years old on January 1, 2005.

(d) PROCEDURE

1. Upon receipt of permit application, the Building Inspector will immediately date stamp the application. If the Building Inspector can determine with certainty that the building or structure does not meet the criteria in Section 16 in regard to its age, or if

the proposed demolition is excluded under Section (b) 9, then the permit may be issued according to current laws.

2. If the building or structure is not excluded under Section (b) 9 and does not meet the Section (b) 16 criteria, then the Inspector shall notify the Historical Commission in writing within seven (7) business days, that he/she has received a demolition permit request, attaching a copy of the application to the notice. The Building Inspector shall also forward copies of the notice to the applicant and the owner (if different).

3. Commission's Determinations

a. Initial Determination: The Commission shall make a written determination of whether the building or structure to be demolished is significant within forty-five (45) days after receipt of the written notice from the Building Inspector , or sixty (60) days after the receipt of the application by the Building Inspector, which ever shall first occur, and complete the following:

If the Commission determines that the building or structure is not significant, the Commission shall so notify the Building Inspector, the applicant, the owner (if different) and the Town Clerk in writing. The applicant shall not be required to take any further action in regard to this Bylaw.

If the Commission determines that the building or structure is significant, the Commission shall so notify the Building Inspector, the applicant, the owner (if different) and the Town Clerk of their determination in writing.

If the Commission fails to respond to the Building Inspector's notice within forty five (45) days of receipt of the written notice from the Building Inspector, or within sixty (60) days of the receipt of the application by the Building Inspector, which ever shall first occur, the Building Inspector may grant the demolition permit.

b. Public Hearing: The Commission shall hold a public hearing on the initial determination and the application within (45) days of filing the initial determination with the Town Clerk. The Town of Swampscott shall give public notice of the hearing by publishing the time, place and purpose of the hearing in a local newspaper and in a conspicuous place in town hall for a period of not less than seven (7) days prior to the hearing. The Town of Swampscott shall also send notice of the public hearing to applicant and owner (if different), and abutters by certified mail, at least seven (7) days prior to the hearing, as defined in Chapter 40A of Massachusetts General Laws.

The applicant for demolition permit may voluntarily submit to the Commission a demolition plan that may include:

A brief description of the type of building or structure and the reason for the proposed demolition, with supporting data.

A scaled plot plan showing the location of the significant building or structure on the property and with reference to neighboring properties.

Photographs of all elevations of the building or structure in the context of its surroundings.

c. Final Determination: Within ten (10) days of the close of the public hearing the Commission shall file a written final determination with the Town Clerk. The Commission shall simultaneously send a copy of the final determination to the Building Inspector and send copies to the applicant and the owner (if different) by certified mail. If the Commission determines that demolition of the significant building or structure would be detrimental to the architectural, cultural, political, economic, or social heritage of the Town, such building or structure shall be considered as preferably preserved.

If the Commission determines that the building is not preferably preserved, the Commission shall so notify the Building Inspector and applicant and owner (if different) in writing. The Building Inspector may then issue the demolition permit.

4. If the Commission determines that the building is preferably preserved, the Commission shall notify the Building Inspector and applicant and owner (if different) in writing. No demolition permit may then be issued for a period of nine (9) months from the

date of the determination. If the Commission does not so notify the Building Inspector in writing within ten (10) days of the public hearing, the Building Inspector may issue the demolition permit.

Upon a determination by the Commission that any building which is the subject of an application is a preferably preserved building, no building permit for new construction or alterations on the premises shall be issued for a period of nine (9) months from the date of the determination. During this period, the applicant is encouraged to locate a purchaser for the building or structure who is willing to preserve, restore or relocate the building or structure.

No permit for demolition of a building determined to be a preferably preserved building shall be granted until all approvals necessary for the issuance of a building permit are obtained; including without limitation any necessary zoning variances or special permits, and all appeals from the granting of such approvals must be concluded.

The Building Inspector may issue a demolition permit or a building permit for a preferably preserved building within the nine months if the Commission notifies the Building Inspector in writing that the Commission finds that the intent and purpose of this bylaw is served even with the issuance of the demolition permit or the building permit.

Following the nine-month review period, the Building Inspector may issue the demolition permit.

Prior to the commencement of the demolition process, the property owner shall allow the Commission to make a proper photographic record of the interior and exterior of the building, and allow for salvage of any unique architectural detail that would otherwise be lost during the demolition process.

5. Emergency Demolition and Unsafe Structure

- a. **Emergency Demolition:** If after an inspection, the Building Inspector finds that a building or structure subject to this bylaw is found to pose an immediate threat to public health or safety due to its deteriorated condition and that there is no reasonable alternative to the immediate demolition of the building or structure, then the Building Inspector may issue an emergency demolition permit to the owner of the building or structure. The Building Inspector shall then prepare a report explaining the condition of the building and the basis for his decision, which shall be forwarded to the Commission.
- b. **Unsafe Structure:** In the event that a Board of Survey is convened to consider the condition of a building or structure under Massachusetts General Laws Chapter 143, Section 8, the Chairperson shall be notified to accompany the Board during its inspection.

6. Enforcement

- a. The Commission and/or the Building Inspector are each specifically authorized to institute any and all actions and proceedings, in law or equity, including non-criminal disposition in accordance with G.L. c.40, §21D and Article XII, Section 2 of the Town By-laws, as they may deem necessary and appropriate to obtain compliance with the requirements of this bylaw or to prevent a threatened violation thereof.
- b. Anyone who voluntarily demolishes a building or structure without first obtaining a demolition permit in accordance with the provisions of this bylaw shall be subject to a fine of not more than ten percent of the assessed property value. No building permit shall be issued for a period of two years from the date of the demolition on the subject parcel of land or any adjoining parcels of land under common ownership and control unless the building permit is for the faithful restoration or unless otherwise agreed to by the Commission.

SECTION 5: HISTORIC DISTRICTS ACT.

If any of the provisions of this by-law conflict with the Historic Districts Act, Massachusetts General Law, Chapter 40C, that act shall prevail.

SECTION 6: SEVERABILITY

In case any section, paragraph or part of this by-law be for any reason declared invalid or unconstitutional by any court, every other section, paragraph, and part shall continue in full force and effect.

Chapter 40C, setting forth such forms and procedures as it deems desirable and necessary for the regulation of its affairs and the conduct of its business, including requirements for the contents and form of applications for CERTIFICATES, fees, hearing procedures, and other matters. The COMMISSION shall file a copy of any such Rules and Regulations with the office of the Town Clerk.
3. The COMMISSION, after a public hearing duly posted and advertised at least 14 days in advance in a conspicuous place at Town Hall and in a newspaper of general circulation, may adopt and from time to time amend guidelines which set forth the designs for certain EXTERIOR ARCHITECTURAL FEATURES which are, in general, suitable for the issuance of a CERTIFICATE. No such design guidelines shall limit the right of an applicant for a CERTIFICATE to present other designs to the COMMISSION for approval.
4. The COMMISSION shall within 30 days of the beginning of each fiscal year hold an organizational meeting and elect a Chairman, a Vice Chairman and Secretary, and file notice of such election with the office of the Town Clerk.

No building permit for CONSTRUCTION of a BUILDING or STRUCTURE or for ALTERATION of an EXTERIOR ARCHITECTURAL FEATURE within a DISTRICT and no demolition permit for demolition or removal of a BUILDING or STRUCTURE within a DISTRICT shall be issued by the Town or any department thereof until a CERTIFICATE as required under this By-law has been issued by the COMMISSION.

G. PROCEDURES FOR REVIEW OF APPLICATIONS

1. Any person who desires to obtain a CERTIFICATE from the COMMISSION shall file with the COMMISSION an application for a CERTIFICATE of Appropriateness, of Non-Applicability or of Hardship, as the case may be. Seven (7) copies of the application packages shall be filed with the Town Clerk; one for the Town Clerk, one for the Building Department, and five for the COMMISSION. Applications shall be in the form specified by the COMMISSION, which may include plans and elevations signed by an architect or draftsman, drawn to scale, detailed enough to show architectural design of the structure and its relation to the existing building, and other materials deemed necessary by the COMMISSION. Plot and site plans should be filed when application for CERTIFICATES are made for improvements affecting appearances, such as walls, fences, steps and paving. In the case of demolition or removal, the application must include a statement of the proposed condition and appearance of the property thereafter.
2. The COMMISSION shall determine within fourteen (14) days of the filing of an application for the CERTIFICATE whether said application involves any EXTERIOR ARCHITECTURAL FEATURES which are within the jurisdiction of the COMMISSION.
3. If the COMMISSION determines that an application for a CERTIFICATE does not involve any EXTERIOR ARCHITECTURAL FEATURES, or involves an EXTERIOR ARCHITECTURAL FEATURE which is not subject to review by the COMMISSION under the provisions of this Bylaw, the COMMISSION shall forthwith issue a CERTIFICATE of Non-Applicability.
4. If the COMMISSION determines that such application involves any EXTERIOR ARCHITECTURAL FEATURE subject to review under this By-law, it shall hold a public hearing on the application, except as may otherwise be provided in this By-law. The COMMISSION shall hold such a public hearing within forty-five (45) days from the date of the filing of the application. At least fourteen (14) days before said public hearing, public notice shall be given by posting in a conspicuous place at Town Hall. Such notice shall identify the time, place and purpose of the public hearing. Concurrently, a copy of said public notice shall be mailed to the applicant, to the owner of the property under consideration if different from applicant, to the owners of all adjoining properties and of other properties deemed by the COMMISSION to be materially affected thereby, all as they appear on the most recent applicable tax list, to the Planning Board, to any person filing a written request for notice of hearings, such request to be renewed yearly in December, and to such other persons as the COMMISSION shall deem entitled to notice.

1. A public hearing on an application for a CERTIFICATE need not be held if such hearing is waived in writing by all persons entitled to notice thereof. In addition, a public hearing on an application for a CERTIFICATE may be waived by the COMMISSION if the COMMISSION determines that the EXTERIOR ARCHITECTURAL FEATURE involved, or its category, is so insubstantial in its effect on the DISTRICT that it may be reviewed by the COMMISSION without a public hearing. If the COMMISSION dispenses with a public hearing on an application for a CERTIFICATE, notice of such application shall be given to the owners of all adjoining property and of other property deemed by the COMMISSION to be materially affected thereby as above provided, and ten (10) days shall elapse after the mailing of such notice before the COMMISSION may act upon such application.

5. Within sixty (60) days after the filing of an application for a CERTIFICATE, or within such further time as the applicant may allow in writing, the COMMISSION shall issue a CERTIFICATE or disapproval. In the case of a disapproval of an application for a CERTIFICATE, the COMMISSION shall set forth in its disapproval the reasons for such disapproval. The COMMISSION may include in its disapproval specific recommendations for changes in the applicant's proposal with respect to the appropriateness of design, arrangement, texture, material and similar features which, if made and filed with the COMMISSION in a subsequent application, would make the application acceptable to the COMMISSION.

6. The concurring vote of a majority of the members shall be required to issue a CERTIFICATE.

7. In issuing CERTIFICATES, the COMMISSION may, as it deems appropriate, impose certain conditions and limitations, and may require architectural or plan modifications consistent with the intent and purpose of this By-law.

8. If the COMMISSION determines that the CONSTRUCTION or ALTERATION for which an application for a CERTIFICATE of Appropriateness has been filed will be appropriate for or compatible with the preservation or protection of the DISTRICT, the COMMISSION shall issue a CERTIFICATE of Appropriateness.

9. If the CONSTRUCTION or ALTERATION for which an application for a CERTIFICATE of Appropriateness has been filed shall be determined to be inappropriate and therefore disapproved, or in the event of an application for a CERTIFICATE of Hardship, the COMMISSION shall determine whether, owing to conditions especially affecting the BUILDING or STRUCTURE involved, but not affecting the DISTRICT generally, failure to approve an application will involve a substantial hardship, financial or otherwise, to the applicant and whether such application may be approved without substantial detriment to the public welfare and without substantial derogation from the intent and purposes of this By-law. If the COMMISSION determines that owing to such conditions failure to approve an application will involve substantial hardship to the applicant and approval thereof may be without such substantial detriment or derogation, the COMMISSION shall issue a CERTIFICATE of Hardship.

10. The COMMISSION shall send a copy of its CERTIFICATES and disapprovals to the applicant and shall file a copy of its CERTIFICATES and disapprovals with the office of the Town Clerk and the Inspector of Buildings. The date of issuance of a CERTIFICATE or disapproval shall be the date of the filing of a copy of such CERTIFICATE or disapproval with the office of the Town Clerk.

11. If the COMMISSION should fail to issue a CERTIFICATE or a disapproval within sixty (60) days of the filing of the application for a CERTIFICATE, or within such further time as the applicant may allow in writing, the COMMISSION shall thereupon issue a CERTIFICATE of Hardship Due to Failure to Act.
12. Each CERTIFICATE issued by the COMMISSION shall be dated and signed by its chairman or such other person designated by the COMMISSION to sign such CERTIFICATES on its behalf.
13. A PERSON AGGRIEVED by a determination of the COMMISSION may, within twenty (20) days of the issuance of a CERTIFICATE or disapproval, file a written request with the COMMISSION for a review by a person or persons of competence and experience in such matters, acting as arbitrator and designated by the regional planning agency, the Metropolitan Area Planning Council. The finding of the person or persons making such review shall be filed with the Town Clerk within forty-five (45) days after the request, and shall be binding on the applicant and the COMMISSION, unless a further appeal is sought in the Superior Court as provided in Chapter 40C, Section 12A. The filing of such further appeal shall occur within twenty (20) days after the finding of the arbitrator has been filed with the office of the Town Clerk.
14. A PERSON AGGRIEVED by a determination of the COMMISSION who does not request a review under Section G (13) may, within twenty days after the filing of the notice of such determination with the Town Clerk, appeal to the Superior Court, as provided in Chapter 40C, Section 12A.

H. CRITERIA FOR DETERMINATIONS

1. In deliberating on applications for CERTIFICATES, the COMMISSION shall consider, among other things, the historic and architectural value and significance of the site, BUILDING or STRUCTURE; the general design, proportions, detailing, mass, arrangement, texture, and material of the EXTERIOR ARCHITECTURAL FEATURES involved; and the relation of such EXTERIOR ARCHITECTURAL FEATURES to similar features of BUILDINGS and STRUCTURES in the surrounding area.
2. In the case of new CONSTRUCTION or additions to existing buildings or STRUCTURES, the COMMISSION shall consider the appropriateness of the scale, shape and proportions of the BUILDING or STRUCTURE both in relation to the land area upon which the BUILDING or STRUCTURE is situated and in relation to BUILDINGS and STRUCTURES in the vicinity. The COMMISSION may in appropriate cases impose dimensional and setback requirements in addition to those required by applicable statute or bylaw.
3. When ruling on applications for CERTIFICATES on solar energy systems as defined in Section IA of Chapter 40A, the COMMISSION shall consider the policy of the Commonwealth of Massachusetts to encourage the use of solar energy systems and to protect solar access.
4. The COMMISSION shall not consider interior arrangements or architectural features not subject to public view from a public way.

I. EXCLUSIONS

1. The COMMISSION shall exclude from its purview the following:
 1. TEMPORARY BUILDINGS, STRUCTURES, or SIGNS subject, however, to conditions pertaining to the duration of existence and use, location, lighting, removal and similar matters as the COMMISSION may reasonably specify.

 5. The color of paint.

 7. Signs of not more than two (2) square feet in DISPLAY AREA in connection with use of a residence for a customary home occupation or for professional purposes, provided only one such sign is displayed in connection with each residence and if illuminated is illuminated only indirectly; and one sign in connection with the nonresidential use of each BUILDING or STRUCTURE which is not more than six (6) square feet in DISPLAY AREA, consists of letters painted on wood without symbol or trademark and if illuminated is illuminated indirectly.
 8. Landscaping with plants, trees, shrubs or other vegetation.
 9. Photovoltaic (PV) Solar Panels.
2. Upon request the COMMISSION shall issue a CERTIFICATE of Non-Applicability with respect to CONSTRUCTION or alteration in any category not subject to review by the COMMISSION in accordance with the above provisions.

3. Nothing in this By-law shall be construed to prevent the ordinary maintenance, repair or replacement of any EXTERIOR ARCHITECTURAL FEATURE within a DISTRICT which does not involve a change in design, material or the outward appearance thereof, nor to prevent landscaping with plants, trees or shrubs, nor construed to prevent the meeting of requirements certified by a duly authorized public officer to be necessary for public safety because of an unsafe or dangerous condition, nor construed to prevent any CONSTRUCTION or ALTERATION under a permit duly issued prior to the effective date of this By-law.

J. CATEGORICAL APPROVAL

The COMMISSION may determine from time to time after a public hearing, duly advertised and posted at least fourteen (14) days in advance in a conspicuous place at Town Hall, that certain categories of EXTERIOR ARCHITECTURAL FEATURES, STRUCTURES or BUILDING under certain conditions may be CONSTRUCTED or ALTERED without review by the COMMISSION without causing substantial derogation from the intent and purpose of this By-law.

K. ENFORCEMENT AND PENALTIES

1. The COMMISSION shall determine whether a particular activity is in violation of this By-law or not, and the COMMISSION shall be charged with the enforcement of this By-law.
2. The COMMISSION, upon a written complaint of any resident of Swampscott, or owner of property within Swampscott, or upon its own initiative, shall institute any appropriate action or proceedings in the name of the Town of Swampscott to prevent, correct, restrain or abate violation of this By-law. In the case where the COMMISSION is requested in writing to enforce this By-law against any person allegedly in violation of same and the COMMISSION declines to act, the COMMISSION shall notify, in writing, the party requesting such enforcement of any action or refusal to act and the reasons therefore, within twenty one (21) days of receipt of such request.
3. Whoever violates any of the provisions of this By-law shall be punishable by a fine of up to \$300.00 for each offense. Each day during any portion of which such violation continues to exist shall constitute a separate offense.
4. The COMMISSION may designate the Inspector of Buildings of the Town of Swampscott to act on its behalf and to enforce this By-law under the direction of the COMMISSION.

L. VALIDITY AND SEPARABILITY

The provisions of this By-law shall be deemed to be separable. If any of its provisions, sections, subsections, sentences or clauses shall be held to be invalid or unconstitutional by any court of competent jurisdiction, the remainder of this By-law shall continue to be in full force and effect.

SECTION 3. EARTH REMOVAL PROCEDURE

(a) Permit Required - The removal of more than 600 cubic yards of earth from any parcel of land shall, except as herein provided, be allowed only in accordance with a written permit issued by the Board. The Board may grant a permit for such removal and for structures accessory thereto in accordance with the procedure set forth herein. Any permit granted hereunder shall lapse within six (6) months if substantial use has not sooner commenced, except for good cause shown to the Board. No permit for removal shall be granted unless the Board finds that such removal (subject to the conditions imposed by the permit) will not be contrary to the best interests of the Town; and no removal operations subsequently undertaken under such permit shall continue if contrary to such interests. Removal of earth material shall be considered contrary to the best interest of the Town if it will:

1. Be injurious or dangerous to the public health or safety;
 2. Produce noise, vibration, dust or other effects in amounts which are unreasonable, detrimental or otherwise interfere with the normal use of adjacent property or otherwise creates a nuisance;
 3. Have a material adverse effect on the health, safety or overall quality of life for the inhabitants of the Town;

This contour plan shall show locations of a sufficient number of test borings made to determine the average depth of top soil before excavation. The plan shall further show the maximum depth that the applicant intends to excavate, the type of material the applicant intends to extract from the land, the manner and depth in which the top soil shall be replaced, and the type of reseeded and planting proposed for use;
6. A detailed plan of the land involved, prepared by a Registered Civil Engineer, or a registered surveyor, and acceptable to the Board, showing two (2) foot contours of the site as of the completion of the excavation project, all drawn to a scale acceptable to the Board;

(d) If a permit holder fails to comply within thirty (30) days of a written notice from the Board of any deviation from the approved operating plan, the Board may take such action as is necessary to correct the deviations. In the event of such an undertaking by the Board, the owner of the land shall reimburse the Town for expenses incurred in connection therewith, and such expenses shall constitute a lien upon the entire tract of land approved in the permitting process.

(e) The Board may bring suit in the name of the Town of Swampscott to restrain any violation of or noncompliance with the provisions of these regulations.

SECTION 12. VALIDITY

The invalidity of any section or provision of this by-law shall not invalidate any other section or provisions thereof.

A copy of the IPM shall be provided to the Swampscott Board of Health Agent.
2. Where appropriate, pest control devices and supplies (e.g., bait stations and traps) shall be used so as to facilitate the management and effectiveness of the pest control program.
3. The IPM plan shall be implemented in such a manner that toxicants or other control tools do not pose a hazard to persons, domestic animals, or non-target wildlife, and in a manner that is consistent with all applicable federal, state, or local environmental or public health laws or regulations, including the Massachusetts Wetlands Protection Act.
4. The IPM plan requirements are to be performed prior to demolition, excavation, and site preparation, and throughout the project area, so that rodents and other pests do not disperse from or infest the project area or bordering areas. Accordingly, implementation of the IPM plan shall be initiated no later than two weeks before field mobilization begins for the project or such earlier date as necessary to allow for adequate time to achieve control before environmental disruptions.

5. The project contractor or third-party subcontractor shall perform the rodent control tasks described in the IPM plan and shall respond to other pest control needs when directed by the Swampscott Board of Health Agent.
6. The project contractor or sub-contractor shall maintain a cooperative dialogue with Town representatives and owners of neighboring properties throughout the development and implementation of the IPM plan.

(b) QUALIFICATIONS

Pest control applicators shall have specific training and experience in rodent control and integrated pest management and shall have a Massachusetts pesticide applicator license or certification.

(c) INSPECTIONS

1. Prior to any rodent baiting, the proposed construction area and accessible or observable bordering areas (including, but not limited to, all embankments, edge areas, and properties within and abutting the construction area) shall be inspected and signs of rodent activity and sanitation conditions recorded.
2. Thereafter, and for the duration of the project, the proposed construction area and accessible or observable bordering areas, shall be thoroughly inspected for rodent activity and sanitation deficiencies in accordance with the schedule as specified in the IPM, unless directed by the Swampscott Board of Health Agent to inspect on a different or more frequent schedule.

(d) APPLICATION FOR RODENT CONTROL

1. For surface placement of rodent baits, properly secured and tamper-resistant rodent bait stations and traps consistent with U.S. Environmental Protection Agency regulation shall be used and individually numbered and properly identified.
2. Bait stations and traps shall be installed and secured at all observable rodent burrows and at regular and appropriate intervals and locations. Rodent activity (burrows, droppings, bait consumed, dead rodents) shall be recorded. Bait shall be replenished and bait stations and traps shifted as necessary to ensure complete control of rodent populations. Bait placements shall be inspected on a schedule as specified in the IPM plan, unless directed by the Swampscott Board of Health Agent to inspect on a different or more frequent schedule. Inspection and baiting data shall be used to determine the most effective distribution of baiting locations and bait quantities.
3. For situations involving underground construction/demolition, utility relocation, or utility construction, manholes shall be accessed according to the requirements of appropriate agencies and utility companies. Appropriate baits to control rodent populations in manholes and catch basins shall be placed in all accessible manholes and catch basins within the project areas.

(e) CLEANUP

1. Visible rodent carcasses shall be promptly removed and properly disposed of.
2. Upon completion of any pest control operations at the site, all remaining bait and bait stations and traps and other controls shall be removed and properly disposed of.

(f) COMPLAINT CALLS

1. During construction, pest-related complaints from the adjacent neighborhood must be responded to by the project contractor or person designated as responsible for responding to neighborhood complaints as soon as practicable. In responding to any such complaints, if it is determined that there is a relationship between pest infestation and the construction activities, or when directed by the Swampscott Board of Health Agent pesticides or traps, or other appropriate controls or measures shall be used as necessary and appropriate to resolve the complaint.
2. 24-hour contact information shall be provided in the IPM plan for the project contractor or person responsible for responding to neighborhood complaints.
3. Records of all complaints received, including location, contact person, inspection results, and actions taken, shall be created and maintained, as well as whether it was determined that the pest infestation was related to construction activities and, if so, the action taken to resolve the complaint.

(g) RECORD KEEPING

1. Accurate records and data sheets shall be created and maintained setting forth, at a minimum: the locations of areas treated; the number and types of bait stations and traps and other control devices set; the amount of pesticide used; inspections conducted and their findings; information regarding any complaints received as specified in subparagraph(g)(3) above; and an explanation of any changes in pest activity observed in the construction area and accessible or observable bordering areas.
2. All such reports and data sheets shall be provided to the Swampscott Board of Health Agent according to the schedule provided in the IPM plan, but not less than on a monthly basis.

ARTICLE XIX

CONSTRUCTION AND POST-CONSTRUCTION STORMWATER MANAGEMENT

SECTION 1. PURPOSE

Regulation of discharges to the municipal separate storm sewer system (MS4) is necessary for the protection of the Town's water bodies and groundwater, and to safeguard the public health, safety, welfare and the environment. Increased and contaminated stormwater runoff associated with developed land uses and the accompanying increase in impervious surface are major causes of impairment of water quality and flow in lakes, ponds, streams, rivers, wetlands and groundwater. In addition, land disturbances can cause harmful impacts due to soil erosion and sedimentation:

- A. Impairment of water quality and flow in lakes, ponds, streams, rivers, wetlands and groundwater;
- B. Contamination of drinking water supplies;
- C. Erosion of stream channels;
- D. Alteration or destruction of aquatic and wildlife habitat;
- E. Flooding; and
- F. Overloading or clogging of municipal catch basins and municipal storm drainage systems.

Therefore, this Construction and Post-Construction Stormwater Management Bylaw ("Bylaw") establishes stormwater management standards for the final conditions that result from development and redevelopment projects to minimize adverse impacts offsite and downstream which would be born by abutters, townspeople, and the general public. In addition, the Bylaw establishes stormwater management standards for land disturbances that have harmful impacts of soil erosion and sedimentation.

The objectives of the Bylaw are:

- A. To require practices to control the flow of stormwater from new and redeveloped sites into the municipal storm drainage system in order to prevent flooding and erosion;
- B. To protect groundwater and surface water from degradation;

- C. To promote groundwater recharge and infiltration;
- D. To prevent pollutants from entering the Town's municipal separate storm sewer system (MS4) and to minimize discharge of pollutants from the MS4;
- E. To ensure adequate long-term operation and maintenance of structural stormwater best management practices (BMPs) so that they work as designed;
- F. To require practices that eliminate soil erosion and sedimentation and control the volume and rate of stormwater runoff resulting from land disturbances;
- G. To ensure that soil erosion and sediment control measures and stormwater runoff control practices are incorporated into the site planning and design process and are implemented and maintained;
- H. To encourage the use of non-structural stormwater management measures and better site design practices or "low-impact development practices", such as reducing impervious cover and the preservation of green space and other natural areas, to the maximum extent practicable;
- I. To require practices to control waste such as discarded building materials, concrete truck washout, chemicals, litter, and sanitary waste at the construction site that may cause adverse impacts to water quality;
- J. To comply with state and federal statutes and regulations relating to stormwater discharges; and
- K. To establish the Town's legal authority to ensure compliance with the provisions of this Bylaw through inspection, monitoring, and enforcement.

SECTION 2.

DEFINITIONS

The definitions contained herein apply to issuance of a Stormwater Management Permit established by this Bylaw. Terms not defined in this section shall be construed according to their customary and usual meaning unless the context indicates a special or technical meaning.

ABUTTER – The owner(s) of land abutting the activity.

ALTERATION – Any activity that will measurably change the ability of a ground surface area to absorb water or will change existing surface drainage patterns. Alteration may be similarly represented as “alteration of drainage characteristics” and “conducting land disturbance activities”. Such changes include change from distributed runoff to confined discrete discharge, change in the volume of runoff from the area, change in the peak rate of runoff from the area, and change in the recharge to groundwater on the area.

APPLICANT – Any person, individual, partnership, association, firm, company, corporation, trust, authority, agency, department, or political subdivision, of the Commonwealth of Massachusetts or the Federal government to the extent permitted by law requesting a Stormwater Management Permit for proposed land disturbances.

BEST MANAGEMENT PRACTICES (BMP) – Structural, non-structural and managerial techniques that are recognized to be the most effective and practical means to prevent and/or reduce increases in stormwater volumes and flows, reduce point source and non-point source pollution, and promote stormwater quality and protection of the environment. “Structural” BMPs are devices that are engineered and constructed to provide temporary storage and treatment of stormwater runoff. “Non-structural” BMPs are natural measures to reduce pollution levels, do not require extensive construction efforts, and/or promote pollutant reduction by eliminating the pollutant source.

CLEAN WATER ACT – The Federal Water Pollution Control Act (33 U.S.C. § 1251 et seq.) as hereafter amended.

CLEARING – Any activity that removes the vegetative surface cover. Clearing activities generally include grubbing activity as defined below.

DEVELOPMENT – The modification of land to accommodate a new use or expansion of use, usually involving construction.

DISCHARGE OF POLLUTANTS – The addition from any source of any pollutant or combination of pollutants into the municipal storm drainage system or into the waters of the United States or Commonwealth of Massachusetts from any source.

DISTURBANCE OF LAND – Any action, including clearing and grubbing that causes a change in the position, location, or arrangement of soil, sand, rock, gravel or similar earth material.

ENFORCEMENT AUTHORITY – Town’s authorized agent to enforce construction and post construction runoff controls as specified in this Bylaw and the Stormwater Management Rules and Regulations. The Director of Public Works, or his designee, is designated as the Enforcement Authority.

EROSION – The wearing away of the land surface by natural or artificial forces such as wind, water, ice, gravity, or vehicle traffic and the subsequent detachment and transportation of soil particles.

EROSION AND SEDIMENT CONTROL PLAN – A document containing narrative, drawings, and details developed by a Registered Professional Engineer (P.E.) or a Certified Professional in Erosion and Sediment Control (CPESC), which includes BMPs, or equivalent measures designed to control surface runoff, erosion and sedimentation during pre-construction and construction related land disturbances.

GRADING – Changing the level or shape of the ground surface.

GRUBBING – The act of clearing land surface by digging up roots and stumps.

IMPERVIOUS SURFACE – Any material or structure on or above the ground that prevents water infiltrating the underlying soil. Impervious surface includes but is not limited to roads, paved parking lots, sidewalks, and roof tops.

LAND DISTURBANCE – Any action that causes a change in the position, location, or arrangement of soil, sand, rock, gravel, or similar earth material.

LOW IMPACT DEVELOPMENT (LID) – An approach to environmentally friendly land use planning. It includes a series of landscaping and design techniques intended to maintain the natural, pre-developed ability of a site to manage rainfall. LID techniques capture water on site, filter it through vegetation, and allow seeping into the ground rather than being lost as surface runoff so that the local water table can recharge. An important LID principle embodies the concept that rainwater is a resource and not merely a superfluous waste product.

MASSACHUSETTS STORMWATER MANAGEMENT POLICY – The Policy issued by the Department of Environmental Protection, and as amended, that coordinates the requirements prescribed by state regulations promulgated under the authority of the Massachusetts Wetlands Protection Act G.L. c. 131 §. 40 and Massachusetts Clean Waters Act G.L. c. 21, §. 23-56. The Policy addresses stormwater impacts through implementation of performance standards to reduce or prevent pollutants from reaching water bodies and control the quantity of runoff from a site. The policy has been incorporated in the Regulations to the Wetlands Protection Act at 310 CMR 10.05(6)(k) through (q).

MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) OR MUNICIPAL STORM DRAINAGE SYSTEM – The system of conveyances designed or used for collecting or conveying stormwater, including any road with a drainage system, street, gutter, curb, inlet, piped storm drain, pumping facility, retention or detention basin, natural or man-made or altered drainage channel, reservoir, and other drainage structure that together comprise the storm drainage system owned or operated by the Town.

NON-POINT SOURCE POLLUTION – Pollution from many diffuse sources caused by rainfall or snowmelt moving over and through the ground.

OPERATION AND MAINTENANCE PLAN – A plan describing the functional, financial, and organizational mechanisms for the ongoing operation and maintenance of a stormwater management system to insure that it continues to function as designed.

OWNER – A person with a legal or equitable interest in property.

PERSON – An individual, partnership, association, firm, company, trust, corporation, agency, authority, department or political subdivision of the Commonwealth of Massachusetts or the federal government, to the extent permitted by law, and any officer, employee, or agent of such person.

POLLUTANT – Any element or property of sewage, agricultural, industrial or commercial waste, runoff, leachate, heated effluent, or other matter whether originating at a point or nonpoint source, that is or may be introduced into any sewage treatment works or waters of the Commonwealth of Massachusetts. Pollutants shall include without limitation:

- A. Paints, varnishes, and solvents;
- B. Oil and other automotive fluids;
- C. Non-hazardous liquid and solid wastes and yard wastes;
- D. Refuse, rubbish, garbage, litter, or other discarded or abandoned objects, ordnances, accumulations and floatables;

- G. Dissolved and particulate metals;
- H. Animal wastes;
- I. Rock, sand, salt, soils;
- J. Construction wastes and residues; and
- K. Noxious or offensive matter of any kind.

POST-DEVELOPMENT – Conditions that reasonably may be expected or anticipated to exist after completion of the land development activity on a specific site or tract of land. Post-development refers to conditions after culmination of a new development or re-development project and does not depict conditions during the construction phases of a project.

PRE-DEVELOPMENT – The conditions that exist at the time that plans for the land development of a tract of land are submitted to the Enforcement Authority. Where phased development or phased plan approval occurs (preliminary grading, roads, utilities, etc.), the existing conditions at the time prior to the first plan submission shall establish pre-development conditions.

RECHARGE – The process by which groundwater is replenished by precipitation through the percolation of runoff and surface water through the soil.

REDEVELOPMENT – Development, rehabilitation, expansion, demolition, or phased projects that disturb the ground surface or increase the impervious area on previously developed sites.

RUNOFF – Rainfall, snowmelt, or irrigation water flowing over the ground surface.

SECTION 1. PURPOSE.

The production and use of single-use plastic bags have significant impacts on the environment of all communities, including but not limited to: contributing to the potential death of fish, fowl, animals and wildlife through ingestion and entanglement; contributing to pollution of the environment through improper disposal; clogging storm drainage systems; creating a burden to solid waste collection and recycling efforts; and requiring the use of millions of barrels of non-renewable, polluting, fossil fuel for their manufacture. Therefore, the Town of Swampscott seeks to phase out the use of single-use plastic bags by all retail establishments, including restaurants providing take-out, doing business in Town over a period of 12 months from the effective date of this bylaw.

SECTION 2. DEFINITIONS.

“Establishment” means any business selling goods, articles, food or personal services to the public, including restaurants.

Existing stock of single-use bags shall be phased out within four (4) months after August 31, 2018; any stock remaining at the end of said 4 months shall be disposed of properly by the Establishment. Customers are encouraged to bring their own reusable shopping bags to stores.

- B. Establishments may provide reusable bags at no charge or charge a reasonable fee for each paper or other bag, as they desire. Establishments are strongly encouraged to make reusable bags available to customers at a reasonable price.
- C. Thin-film plastic bags, used by Establishments to contain dry cleaning, newspapers, produce, meat, bulk foods, wet items, and other similar merchandise, typically without handles, are exempt from the provisions of this Regulation.

SECTION 4. ADMINISTRATION AND ENFORCEMENT.

This Bylaw may be enforced by any Town police officer, enforcement officers or agents of the Board of Health. IMPROVEMENT OF BLIGHTED OR UNSAFE STRUCTURES OR PROPERTY AND THE MAINTENANCE OF VACANT BUILDINGS

Section 1. AUTHORITY AND PURPOSE

Pursuant to the general powers granted to towns by Article 89 of the Amendments to the Massachusetts Constitution, and the specific powers granted by Massachusetts General Laws, Chapter 139, Sections 1-3A, this Bylaw is adopted for the prevention of any unreasonable interference with the common interest of the general public in maintaining decent, safe, and sanitary structures. The provisions of this Bylaw shall be applicable to any building or structure or property that meets any one of the three sets of conditions set forth herein under the definitions of “Blighted Structure or Property”, “Unsafe Structure or Property,” or “Vacant Buildings” **provided however that this bylaw shall not apply to any property in residential use.**

This definition of the term “blighted” is based on Massachusetts General Laws Chapters 121A and 121B and the implementing regulations which provide guidance regarding the definition of blighted structures. Blighted does not constitute a condition that merely adversely affects property values. The term blighted includes, but is not limited to:

- (a) property having deteriorated roofs, foundations, walls, or floors, including broken or inadequately secured windows or doors;

- (d) repair or replace broken windows or doors within thirty (30) days. Boarding up any doors or windows is prohibited except as a temporary measure for no longer than thirty (30) days, and;
- (e) for properties vacant for six months or more at which the utilities have been shut off, remove or cut and cap such utilities to prevent accidents.

Section 6. VIOLATIONS

If the Enforcement Authority is informed of or has reason to believe that blighted or unsafe conditions, as defined in Sections 3 and 4, or that vacant buildings, as defined in Section 5, exist on any real property in the Town, he may make or cause to be made an investigation of the facts, including an inspection of the property where the condition may exist. In making such inspection, the Enforcement Authority shall have such right of access to premises that may be lawfully exercised by him under the laws and constitution of the Commonwealth and/or of the United States.

Section 7. PROCEDURES FOR ENFORCEMENT

- (a) Procedures – During his investigation of the matter, the Enforcement Authority shall make reasonable efforts to consult with the Responsible Party for the purpose of obtaining voluntary compliance with this Bylaw before initiating any enforcement action.

If, after inspection, the Enforcement Authority confirms the existence of blighted or unsafe conditions or vacant buildings in violation of this Bylaw and the Responsible Party fails to voluntarily comply, he shall issue a Notice of Violation and may make and issue such Orders as he deems necessary to correct or eliminate the blighted or unsafe conditions or obtain compliance with the requirements for vacant buildings. Said Notice and Orders shall be in writing and shall be served upon all Responsible Parties as can be determined after reasonable inquiry.

Any Interested Party who has filed a written complaint of blighted or unsafe conditions or vacant buildings to the Enforcement Authority upon which complaint the Enforcement Authority has determined that the conditions do not exist, or the Enforcement Authority has taken action that the Interested Party claims is inadequate, shall have a right to a review of the matter by the Town Administrator. At the request of such an Interested Party, the Town Administrator shall confer with the Enforcement Authority and may confer with other appropriate agencies of Town government such as the Council on Aging, Board of Assessors, and Building Department. The Town Administrator shall make a decision and recommend appropriate action in writing to the Interested Parties, the Responsible Parties, the Enforcement Authority, and the **Select Board**.

Any person aggrieved by the decision and recommendation of the Town Administrator may request a hearing before the **Select Board**. Said request shall be in writing and received by the **Select Board** within ten (10) business days of issuance of the Town Administrator's decision. A copy of the hearing request shall also be delivered to the complainant, if any, and to all interested Parties. It shall be the responsibility of the person requesting the hearing to show that all Interested Parties have been notified of the request. If no such request is received within the time specified herein, the order of the Enforcement Authority shall be final.

A request for hearing shall not constitute a stay of the Enforcement Authority's Order unless the Enforcement Authority so orders.

Upon receipt of a timely request, the **Select Board** shall convene a public hearing, which may include an examination of any complainant or Responsible Party, under oath, to determine whether conditions under this Bylaw exist. Based on the evidence and testimony presented at said public hearing, the **Select Board** may affirm the Enforcement Authority's Order, reverse and nullify the Order, or issue any such Order as it deems necessary to ensure the protection of public safety and/or eliminate blighted or unsafe conditions. The determination of the **Select Board** after a hearing shall be final.

Fines for non-compliance with the Enforcement Authority's or **Select Board's** Order shall be enforceable through the non-criminal disposition procedure, pursuant to M.G.L. Chapter 40, Section 21D, and Article XII of the Town's Bylaws; and/or G.L. c. 40U and Article XXIV of the Town's General Bylaws in the following amounts:

- i. First offense, \$100.00
- ii. Second offense, \$200.00
- iii. Third and successive offenses, \$300.00 each

Each violation of this Bylaw shall constitute a separate offense. Each day that any such violation continues shall constitute a separate offense.

The Enforcement Authority may require that a complaint be made in writing subject to the penalties of perjury. If the Enforcement Authority determines that a reported condition may warrant immediate action, or constitutes a substantial violation of this Bylaw, the Enforcement Authority may seek authority to file for injunctive relief in court without first holding a hearing or providing prior notice to the Responsible Party and without requiring the disclosure of the identity of the complainant.

If the Enforcement Authority determines that the condition is subject to the jurisdiction of the Board of Health or is a violation of the State Sanitary Code or any health regulation, in addition to enforcing this Bylaw, he shall refer the matter to the Board of Health for action.

- (b) Notice to Complainant - In any matter in which a complaint has been made by a person other than the Enforcement Authority, the Enforcement Authority shall notify the complainant in advance of all conferences or proceedings concerning resolution of the complaint or of any enforcement action and the complainant shall be allowed to be present.
- (c) Removal of Blighted or Unsafe Conditions or Vacant Buildings by **Select Board** - If the Responsible Party fails to remedy the conditions upon notice and order from the Enforcement Authority to do so, the **Select Board** may cause corrective action for the conditions as provided in General Laws c. 139.
- (d) Reports by Enforcement Authority - The Enforcement Authority shall file with the Town Administrator each month a report that shall include all complaints under this Bylaw made to him during the prior month; all proceedings begun by him under this Bylaw; all pending complaints and all investigations and enforcement actions taken by him or referred to the Board of Health. The report shall state the location of the premises, a summary of the nature of the complaint, the name of the Responsible Party(ies), and the disposition or the status of the matter.

Section 8. OTHER LAWS

Compliance with this Bylaw shall not relieve the Responsible Party of any applicable obligations set forth in any other codes, regulations, covenant conditions or restrictions, and/or homeowner or condominium association rules and regulations.(5/19)
