What is included in my kit?

Naloxone

There are 2 doses of Naloxone in your bag. Each dose is 4mg of Naloxone and can only be administered in the nose. Please keep Naloxone at room temperature and check your expiration date.

Fentanyl Test Strips

Fentanyl test strips can be used to test your substances for the presence of fentanyl.

Resources

Massachusetts has many resources for people who are using substances. There are also resources for families and other loved ones of people who use drugs and alcohol.
