RE: Municipal Signage Design – Feedback

Beautification Committee members:

The Open Space & Recreation Plan Committee reviewed your feedback request for your municipal signage design project. The Committee is in support of your project and would like to provide the following items for feedback:

- Provide maps (large board) at the larger parks to identify paths and features (Harold King Forest, Ewing Woods, Rail Trail)
- Include signs for regulations and restrictions

Sincerely,

Mary Webster
Open Space & Recreation Plan Committee Chair
