

Fences not over seven feet (2,134 mm) high do not require a State Building Permit. (780 CMR R105.2)

Fences greater than 6 feet high require a Special Permit from the Zoning Board of Appeals.(MGL Ch.49 section 21)

It is recommended that a survey of the property be performed by a Registered Massachusetts Surveyor to ensure that the fence is installed on one's property. Notice to neighbors is always encouraged.

Boundary disputes are settled privately through the Civil Court Process.
